

Turn Your Static PDFs Into Flipable Catalogs And Product Lists

The image shows the FlipBook Creator software interface with several callout boxes highlighting key features:

- Import Microsoft Word**: To Import DOC File and office
- Apply Change**: Apply the change of the flipbook settings
- Convert to FlipBook**: To convert DOC file to FlipBook for online & offline use
- Select Themes**: Applying a 20+ free Themes for flippingbook
- Template Settings Interface**: Design setting interface to custom the flipbook template
- Batch Convert**: Batch Convert PDF to Flipbook

The software window displays a preview of a flipbook page with a navigation bar at the bottom and a settings panel on the left. The settings panel includes options for Tool Bar Settings, Title Bar, Buttons Bar, and Help Config.
